Professional Summary

Computer Science Engineering graduate with hands-on experience in Java, Spring Boot, React, MySQL, and REST APIs through internship and full-stack projects. Experienced in developing backend services, RESTful APIs, database integrations, and responsive web applications.

Technical Skills

Programming Languages: Java (OOP, Collections, Exception Handling, Multithreading), Python
Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), React
Backend Technologies: Spring Boot, Spring Framework, Spring Data JPA, RESTful APIs
Databases: SQL, MySQL, PostgreSQL
Tools & Methodologies: Git, GitHub, Docker, Postman, Maven, Agile, SDLC

Experience

Full Stack Developer Intern Jul 2025 – Aug 2025
GB Tech Corp *Tambaram, Chennai, India*

- Engineered and deployed a full-stack web application leveraging **Spring Boot** and responsive web frontends, directly supporting 25+ active corporate users.
- Optimized relational database schemas and backend queries in **MySQL**, successfully reducing system API response latencies by 20%.
- Designed and built scalable **RESTful APIs** featuring full CRUD functionalities across 10+ core system modules, drastically improving backend data handling efficiency.

Projects

MediCare AI Hospital Management System | *HTML, CSS, JavaScript, Spring Boot* | Code 06/2026

- Developed a full-stack hospital management system using **Spring Boot**, **HTML**, **CSS**, and **JavaScript** for patient and appointment management.
- Implemented **RESTful APIs** for authentication, appointment booking, patient management, and data handling.
- Built responsive interfaces for login, appointments, patient details, appointment status, and symptom checking with **MySQL** integration.

Distributed Learning Management System (LMS) | *Java, Spring Boot, React, MySQL* | Code 03/2026

- Architected a role-based full-stack web application with modular course management functionalities.
- Implemented stateless JWT (JSON Web Tokens) authentication and role-based authorization to secure application APIs and endpoints.
- Designed decoupled **RESTful APIs** to handle user data management and content delivery pipelines.
- Integrated a persistent storage layer with **MySQL** using **Spring Data JPA / Hibernate** to optimize data retrieval queries.

Education

Sri Balaji Chockalingam Engineering College 2022 – 2026
Bachelor of Engineering in Computer Science and Engineering – ***CGPA: 7.8*** *Arani, Tamil Nadu*

Certifications & Achievements

- **Programming with Java** – Elite/Successfully Completed Certification, NPTEL (2026)
- **Spring 5 Basics with Spring Boot** – Professional Development Course, Infosys Springboard (2025)
- **Cybersecurity Analyst** – Tata Group (Forage), Identity and Access Management (IAM), Platform Integration (2026)
- **Data Structures & Algorithms** | Solved core problem-solving challenges focused on arrays, strings, two pointers, and hash maps

Languages

Languages Spoken: Tamil (Native), English (Professional Working Proficiency)
